## Creating Web Pages with HTML5 and CSS3

### Module 2. Formatting with CSS. Lists. CSS Paddings and Margins

#### Task 1

**Implement an HTML page with a list of fruits.**

Style the list as follows:

- light background of the whole list;
- darker background of one of the list items;
- the darkest background behind the text only.

Also, add **margins** and **paddings** to achieve this result:

## Task 2

### Implement an HTML page with a list of tasks.

The visual separation of the list is achieved by setting the blue background of various shades for even and odd items.

The marked items have a gray background, they are checked, and the text is crossed out. The unmarked items of the list are unchecked.

You can display the red cross with a special character.

The required icons are attached to the PDF file of this Homework.\*

### Example of the final result:

### My To Do List

<input type="checkbox"/>	Hit the gym	×
<input checked="" type="checkbox"/>	<del>Pay bills</del>	×
